CC CPSU

The Novosti Press Agency has received a request from representatives of the American television company ABC concerning the creation of a joint special television report on the life of a worker's family from the "Rostselmash" factory in Rostov-on-the-Don. The film will show various aspects of the life of a working-class family, and the family will be used to illustrate the achievements of the Soviet government over the past 50 years.

The film will be shown to APN for approval before it appears on television. The Radio and Television Committee (comrade Mesyatsev) have no objections to the project.

We believe it would be feasible to accept the company's offer. We request authorization.

First deputy chairman of the Press Agency Novosty (APN) Administration
V. Zaychikov [signature]
