The work of the Troika is completed. 9,600 of kulaks, SRs, rebels and other anti-Soviet elements are sentenced within the quota for this region. In addition, some kulak and White Army elements conducting subversive activities are uncovered. In total, up to nine thousands of kulak anti-Soviet elements are registered in the region.

The regional [Party] committee asks to establish the additional quotas of the 1st Category – 3,000, of the 2nd Category – 2,000, and to postpone the deadline till 20 March.
